As a young man dad began his trade as an apprentice mechanical engineer at the Blair Mont Sugar Estate. He then went on to work at the Bauxite Company in McKenzie, Linden, Demerara. He then moved on to Prastons Shipping as a fully competent engineer. He excelled in the field of engineering; acquiring the title (A doctor of the engine). Dad had a very scientific method and approach for doing his work which earned him the respect of his superiors and peers. He then moved on to Booker Shipping, where he had the privilege of sailing all over the Caribbean joyfully for more than forty years; retiring as a Chief Engineer.

Later in life dad migrated to the United States of America, where he primarily resided, and in New York in particular for the last twenty-five years. During that time dad became actively involved in church life drawing closer to the Lord in his personal walk. He was baptized several years ago and was an active member of Grace Assembly Christian Ministries, where he was deeply loved by the brethren, and was one of our best praise and worship dancers; (In fact nobody could dance like Pops as he was lovingly called by the people of GACM). Prior to his migration to the United States of America, he attended Newtown Assembly of God Church, Guyana, where he accepted Jesus as his Lord and personal Savior, under the ministry of Rev. John Cummings.

Dad was accustomed to independent living for most of his life and especially in the United States of America, however, he lost some of that independence coming to the latter days of his life. During this period of his life he was lovingly cared for by his daughter in law Marcia Heyliger, his son Paul and their loving children and grandkids until his passing. It was a joy to take care of Dad.

Dad lived a full and enjoyable life; we were blessed to have had him for the period we did. May his soul rest in peace in the arms of the Lord.
